Zero Grade Progression

For the first three years a student is in high school, the student will advance from one grade level designation to the next based upon completion of a school year of attendance. This will be known as the zero progression plan, whereby a student begins high school as a freshman, the second year of high school attendance will carry a designation of sophomore, the third year of high school attendance will carry the designation of junior. The student will then remain at the junior designation until the student has met the grade level classification to be a senior, as indicated above.

Note: The minimum state GPA required for graduation is a 2.0 (this is a cumulative unweighted GPA)
